## COMMERCIAL AND RESIDENTIAL TECHNOLOGY SOLUTIONS

---

My Attendance and Akronos Technologies are the technology and security divisions of Paradigm Dynamix.

We partner with our clients to provision and maintain highly customized end-to-end secure technology solutions. Our offering is tailor made to address the needs of various sectors by providing specialist consultation on integrated and best-of-breed security, automation and network infrastructure.

## INVESTED IN SERVICE DELIVERY

---

There is a clear need for better levels of service in the South African technical marketplace. Our team have nurtured a service-oriented culture amongst ourselves, clients and industry peers.

We invest in our client relationships and customer satisfaction. My Attendance guarantee our technology, workmanship and support.

## INSTALLATION EXCELLENCE & LONGEVITY

---

The technical team at My Attendance and Akronos Technologies take pride in themselves and their work. We guarantee the quality and workmanship of every installation.

Our constant investment in education and in-field training has created an environment which nurtures a skilled and technically capable workforce that can implement and support a growing variety of technology.

My Attendance clients are exposed to a greater variety of potential solutions to their application requirements. We're vested in the needs of the market and remain up to date on current and emerging technological trends and developments.

## SUMMARY OF SERVICES

---

### SECURITY BY AKRONOS TECHNOLOGIES

Electronic security is a diverse and multi-faceted industry with almost everybody interacting with security technology on a daily basis, whether being monitored by a CCTV camera, moving through an access control point or being caught by burglar alarms.

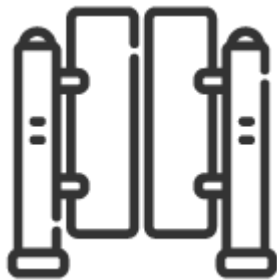

Akronos Technologies was founded in 2005 and is the security division of Paradigm Dynamix. This division specializes in the supply, installation and maintenance of electronic security systems.

## CERTIFIED BRANDS

---

### MY ATTENDANCE AKRONOS GUARANTEED SUPPORT

Our forward-thinking approach helps future-proofing your system investment by planning ahead for expandability and scalability. We only specify equipment that we support.

It's inevitable that inheriting an existing system may be necessary. It has become increasingly common for our competitors to refuse support and suggest completely replacing functional installations. My Attendance is different. We adopt and expand upon your existing functional technology, only suggesting a system replacement if there's a tangible cost benefit or a compelling requirement to do so. Part of our approach is to familiarize ourselves with your existing infrastructure. This is to identify installation errors, potential for "expandability" and system weaknesses.
